Program 40 years IPA Mechelen (Belgium)

Thursday 14th May 2009

- Everybody is welcome on Thursday 14th May 2009. The foreign guests will be coming on Thursday so they can have a good night sleep before starting the program on Friday.

Friday 15th May 2009

- On Friday we're going to do a guided tour through de city of Mechelen. You'll be surprised of the historical and modern splendours Mechelen offers you. We'll also climb the Sint-Romboutstower. The Sint-Romboutstower was build in the 13th century and is 97 meter high. The tower counts 514 steps. In the tower there are two carillons you'll be able to admire. It's also thanks to this tower the people of Mechelen got their nickname 'Maneblussers'. Maneblussers means 'extinguishers of the moon'. The boat trip on the Dijle shows you Mechelen from a different angle.
- Many years Duvel has been one of the best beers in the world. For that reason we must include a visit to the brewery Moortgat.
- At the evening meal you'll be able to choice between different specialities of Mechelen.

Saturday 16th May 2009

- The reception at the town hall is an official ceremony. It would be an honour if you could attend in your uniform.
- Every Saturday it's market day in Mechelen. It starts early in the morning and lasts until midday. We are giving you the opportunity to discover the market and do some souvenir-shopping.
- Saturday afternoon you can see the different services within our police force. Therefore there will be a demonstration by the K9-unit. Our bike-team (police that patrol in the city on mountain bikes) will show you what they can do. There will also be a demonstration by the Special Units. This unit is used for dangerous arrests end use special weapons. Also our lab will show what they can do. You'll be able to see how they detect fingerprints, shoeprint, etc. And to end the police harmony will bring a small concert while you have a drink.
- The gala-evening will be the apotheosis of our party weekend. You'll be presented a dinner and dance-night untill the late (or early) hours.
